

**ACM 18 and ACM 18 CBRN**  
- keep a cool head

# ACM 18 and ACM 18 CBRN - your choice for cooling under extreme conditions

Dantherm mobile air conditioning units are specially built for use by the military and relief agencies. Both these groups require equipment that functions flawlessly during long periods at maximum load under extreme weather conditions.

The ACM 18 and the ACM 18 CBRN are transportable units developed to provide air conditioning in temporary or transportable buildings or tents.

## Benefits:

- Small light weight unit (24 units in a 20' ISO container)
- Easy to transport
- Working as a split system
- Flexible installation
- Automatic phase surveillance and correction
- Non-phase sensitive
- Fresh air supply to ensure sufficient air change

The control board gives an easy and userfriendly access to the functions and status read-outs of the ACM 18 and ACM 18 CBRN air conditioners.

ACM 18 CBRN comes with hoses and cables to connect the evaporator and condenser section.

## Accessories:

- Thermostat
- Electric heating coil
- Insulated flexible hose
- Non-insulated flexible hose

Technical data	Max. cooling (kW)	Heating* (kW)	Air flow (m <sup>3</sup> h)	Height (mm)	Length (mm)	Width (mm)	Weight (kg)
ACM 18*	18	6/16	2500	780	1450	1140	220
ACM 18 CBRN*	18	6/16	2500	780/780	1450/1450	570/570	90/130

\*option with built-in electric heating
